

# Parte practica

Alejandro Montoya Vargas - alemova.1603@gmail.com

## 1. Se asignan las cuentas de AWS

- Lo primero que se hizo fue dar las cuentas con acceso a AWS

## 2. Creación de bucket de S3

**Create bucket** Info

Buckets are containers for data stored in S3.

**General configuration**

**AWS Region**  
US East (N. Virginia) us-east-1

**Bucket type** Info

General purpose  
Recommended for most use cases and access patterns. General purpose buckets are the original S3 bucket type. They allow a mix of storage classes that redundantly store objects across multiple Availability Zones.

Directory  
Recommended for low-latency use cases. These buckets use only the S3 Express One Zone storage class, which provides faster processing of data within a single Availability Zone.

**Bucket name** Info

bucket-de-alejandro-montoya

Bucket names must be 3 to 63 characters and unique within the global namespace. Bucket names must also begin and end with a letter or number. Valid characters are a-z, 0-9, periods (.), and hyphens (-). [Learn more ↗](#)

**Copy settings from existing bucket - optional**  
Only the bucket settings in the following configuration are copied.

[Choose bucket](#)

Format: s3://bucket/prefix

Amazon S3 > Buckets

**Successfully created bucket "bucket-de-alejandro-montoya"**  
To upload files and folders, or to configure additional bucket settings, choose View details.

**General purpose buckets** All AWS Regions **Directory buckets**

**General purpose buckets (2)** [Info](#) [C](#) [Copy ARN](#) [Empty](#) [Delete](#) [Create bucket](#)

Buckets are containers for data stored in S3.

Name	AWS Region	Creation date
<a href="#">bucket-de-alejandro-montoya</a>	US East (N. Virginia) us-east-1	January 30, 2026, 20:31:07 (UTC-05:00)
<a href="#">labjuancamilo2026</a>	US East (N. Virginia) us-east-1	January 30, 2026, 20:31:06 (UTC-05:00)

**Account snapshot** [Info](#) [View dashboard](#) Updated daily  
Storage Lens provides visibility into storage usage and activity trends.

**External access summary** [Info](#) [View dashboard](#) Updated daily  
External access findings help you identify bucket permissions that allow public access or access from other AWS accounts.
